What's unique about Montreal's fashion and design scene? It's the fact that every crazy little project can turn to reality instantly. Azamit is one of Montreal's most hyperactive and high-profiled stylist and art consultant in town. She's been a model and knows everything about fashion – her black book is probably the most wanted among young designers and artists who are looking to achieve international celebrity and fame. All year long, she unearths unique pieces that have been kept hidden from the public, and exhibits them during an event called [STYLIST'S OWN](#). The first edition of STYLIST'S OWN was presented in the spring of 2009 at Domison, a wonderful furniture store on St. Laurent Blvd. 500 people attended the opening night, and 2,000 visitors came over the course of the weekend to look at her latest finds and buy select handpicked objects, clothes and pieces from over 70 creators and labels.

It's a nomadic event that celebrates local culture and gives a chance to Montrealers and visitors to discover the best in Montreal's fashion and design scene at affordable prices. You're invited to come to the second STYLIST'S OWN event, from Friday, October 2nd to Sunday, October 4th, at Studio MW, a hair salon that opened its doors in a heritage building in Old Montreal. You'll find limited editions of beautiful creations from famous Quebec artists such as Denis Gagnon, Morales and Philippe Dubuc, as well as great accessories and clothes from internationally acclaimed brands like Costume National Eyewear, Complexgeometries and Diesel Black Gold.

If you're in town and you want to bring back a very special souvenir from Montreal, this is an amazing opportunity to find the latest offerings and enjoy the hidden treasures from Azamit's collection, chosen among the most innovative showrooms, exhibitions and workshops in town. Check out [STYLIST'S OWN'S WEBSITE](#) for full details about the upcoming events and a comprehensive list of fashion labels you'll be able to find next time you're around.
